2.2 PURPOSE

The purpose of interior design is to create spaces that are beautiful, comfortable, and functional. To create spaces that foster connections between family, friends, neighbors and communities.

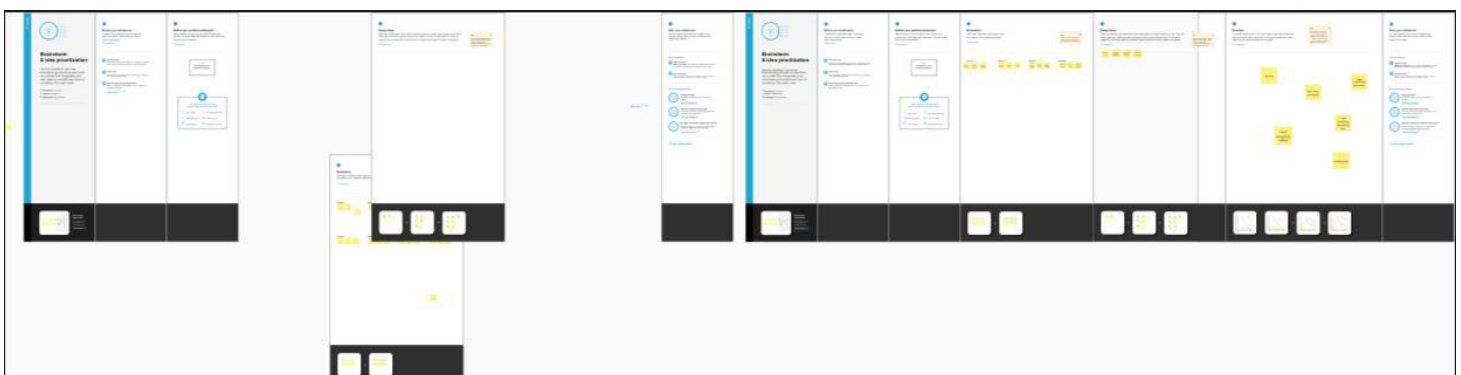

You can find countless definitions of the term “interior design” with just a single google search, but here at Joshua Allen Design we think of design differently. Some think of it simply as creating an aesthetically pleasing arrangement of furniture, some a combination of furniture and paint based on a favorite color scheme. **We see interior design as one of the truest forms of self expression, and that’s why we stand by our philosophy that interior design really is for everyone.**
